

CITYBROOM – 10

The CityBroom by GreensGroomer is a compact version of our GreensBroom for Scrub Seal and Chip Seal operations. The patent-pending design increases the effective surface area and improves brush angles which translates into significant performance gains. These designs control the emulsion into multiple directions, pushing coverage deep into the road profile, as much as 1-inch into the aggregate.

- Efficient Movement of Emulsion
- 4 Directions of Movement
- Flexible 10' Configuration for tight work areas
- Tow-Bar Leveling System
- Electric Actuator for fast, easy lifting/lowering
- Easily Adjustable Brush Heads
- Rigid, Strong Frame for Heavy Daily Use
- Interchangeable and Replaceable Parts for Easy Repair or Modification

The CityBroom is available in a 10 foot operational width. This is achieved by an innovative approach to product design by using specially design “wings”. Each row of brushes are swivel mounted for greater brush control and adaptability to the road surface and specific project needs.

SPECIFICATIONS*

Model	330
Main Frame	2 inch square tube (11 gauge)
Frame Width	83 inches, all steel construction
Finish	Powder coat with 6-step pre-wash including de-greaser and anti-rust coating
Length	16' long including 7' drawbar
Height	48" lifted full height
Weight	1250 lbs fully assembled
Brushes	(Qty: 32) 4 various sizes, 5" bristles, 25" and 19" full and half density brushes
Lifting Mechanism	12v Electric Actuator (1000 lbs capacity) with keyless FOB
Shipping Crate	111" long x 84" wide x 50" tall
Crated Weight	1525 lbs.
